## DISTRIBUTION NETWORK EXPANSION MILESTONES

## WHY VICOSTONE

1. Vicostone owns 6 State of the Art Italian Breton Production lines. Our machinery is operated 24/7 to fulfill the increasing global demand for quartz.
2. We were the third largest supplier of Engineered Stone countertops to the global market in 2019, with sales of 24.7 million square feet, which accounts for 3.9% of global demand. - Freedonia Report
3. We offer a wide range of unique Colour Collections, and we are famous for our innovative Marble Look Designs.
4. Our premium quality slabs are consistent in colour, sheen, thickness, and hardness which enables our Stone Fabricator's to install your countertop efficiently and successfully every time.
5. We offer Jumbo slabs, sized at 65" x 130", which enables you to better utilize material yield and have a seamless installation over large spans.
6. Our Nation-Wide Distribution centers and delivery networks enable our customers to easily purchase our slabs and have piece of mind about our lead time of delivery.
7. Our Customer Service is well recognized between our customers and dealers.

## PRODUCT LAUNCH MILESTONES

## FEATURED DESIGN

### **Bahia** - BQ8883 Full slab view (left) and close-up (middle)

Bahia BQ8883 is inspired by the contrasting light and dark elements from deep under the millennium-forming geological layers. The product is the embodiment of the beauty and mysterious power of deep-down sediment movements. The release of Bahia is even more meaningful as this is the first time the impressive and trend-setting “Big Chunk” design has been featured in a product by VICOSTONE

# EXOTIC COLLECTION

The elegant and premium designs of our Exotic Collection provide endless beauty to all surfaces.

## THUNDER SERIES

Lake Maracaibo in Venezuela is known as the “Paradise of Thunder Dances” with approximately 3 million lightning strikes per year. Famous photographers around the world gather here to hunt for these impressive moments. Fascinatingly, lightning at Lake Maracaibo is so bright that it can be seen clearly from a distance of up to 400 km away. Sailors can navigate in the dark in the middle of the vast sea by the power of these lightening strikes. We are inspired by this phenomenon and the power of mother nature. Through quartz, we’ve infused the force of these bright, energetic lightning bolts, into the Thunder Collection.
